

Tri Bio-Botanical Revival Masque

Description

The Tri Bio-Botanical Revival Masque has a unique combination of ingredients formulated to specifically target the effects of photo-damaged skin and the appearance of uneven skin texture

Benefits

- Lactic Acid increases the look of hydration in the skin and it is known to lighten the appearance of pigmented marks.
- Research has shown that Asiatic Acid helps to increase the look of regenerated skin.
- Mandelic Acid is useful in rejuvenating the appearance of pigmented areas

How to Use:

This product can be applied as a 10-20 minute mask or as an overnight mask.

As a 10-20 minute mask (gradually building up to 20 minutes)

1. Pre-cleanse, cleanse and tone with your preferred Environ products.
2. Using the brush provided, apply an even thin layer of the product onto the skin.
3. Leave on the skin for 10-20 minutes (start by using twice a week).
4. Rinse with tepid water.
5. Follow with your recommended Environ vitamin A moisturizer.
6. Use in the evening.

As an overnight mask (once comfortable with a 20-minute daily application)

1. Pre-cleanse, cleanse and tone with your preferred Environ products.
2. Apply your recommended Environ vitamin A moisturizer.
3. After 20 minutes, apply a thin layer of the Revival Masque.
4. Leave on overnight and rinse with tepid water in the morning.
